

DIMKOFF.

SMM + AI PRODUCT BUILDER

SIGNAL INTO SYSTEM.
SYSTEM INTO PRODUCT.

NOT CONTENT. INFRASTRUCTURE.

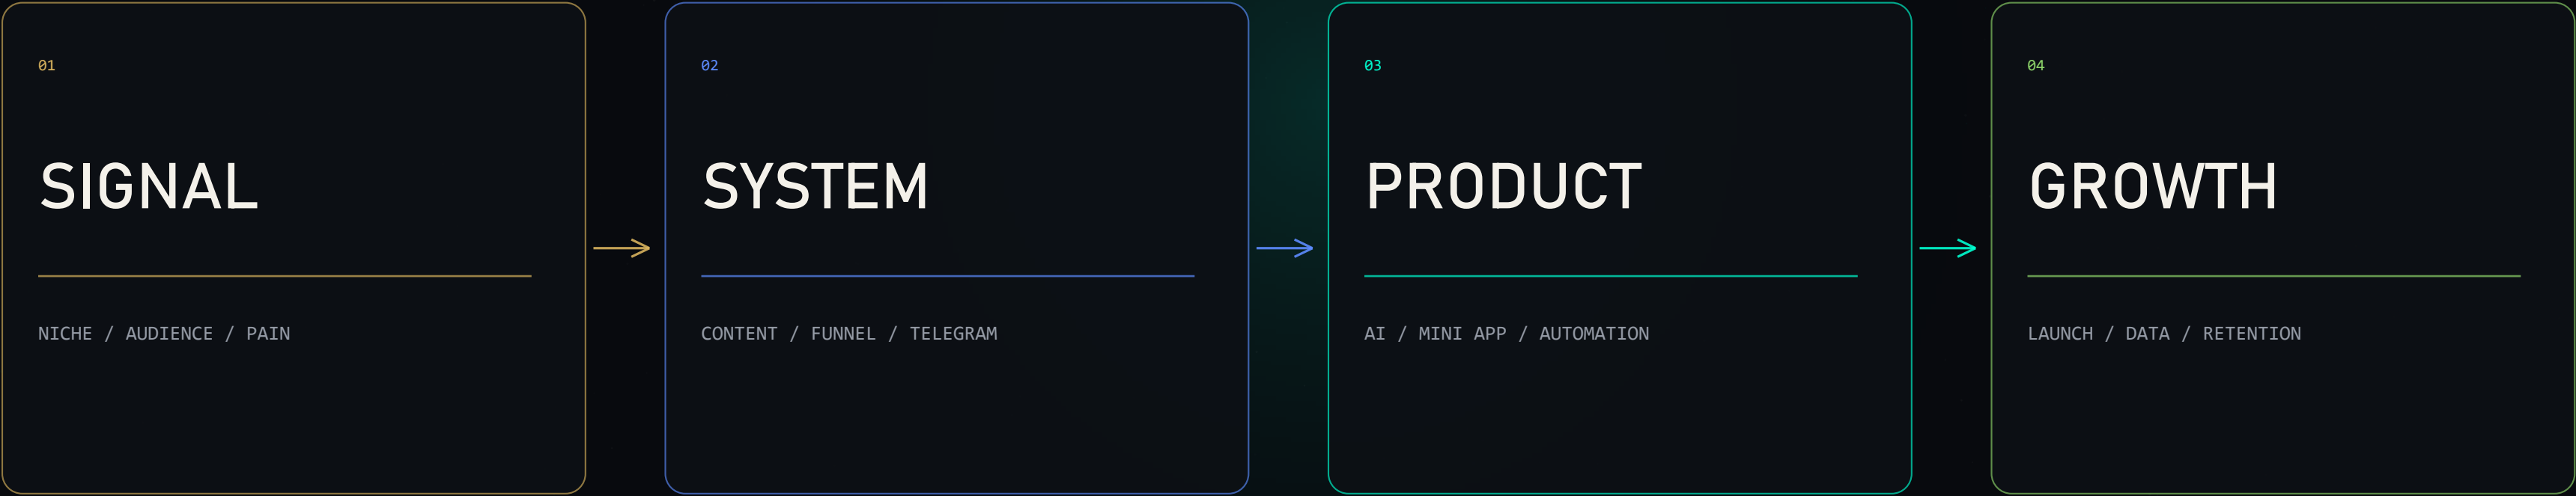

WHERE AUDIENCE LOGIC MEETS PRODUCT LOGIC

DimkoFF connects SMM thinking, AI execution and product delivery. Built for founders, brands and teams that need a path from attention to a working digital system.

SIGNAL INTO PRODUCT

Strategy, interface, automation, growth.

ONE SIGNAL. THREE MODES.

DIMKOFF.

PRIMARY WORDMARK

COMPACT MARK / DFF

DFF / AI

PRODUCT SIGNATURE

SIGNAL MODE

The dot is the active signal. The container is the system. The wordmark is the public identity.

CONSTRUCTED FOR CLARITY

01

CLEAR SPACE

Minimum clear space equals the signal dot diameter around every edge.

02

RESPONSIVE SCALING

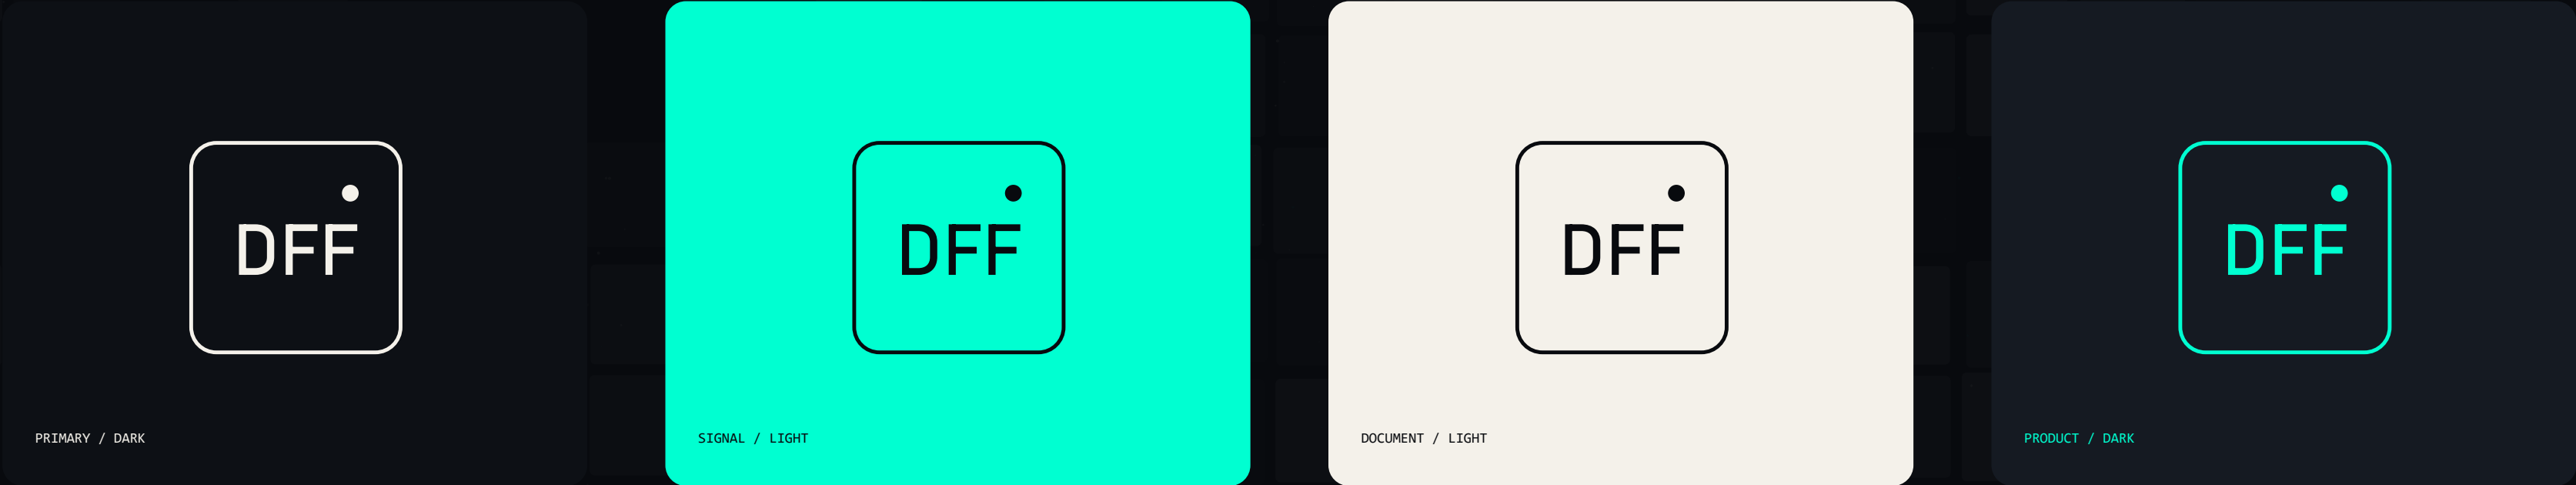

Wordmark for wide surfaces. DFF mark below small-display threshold.

03

ONE ACTIVE SIGNAL

Never add a second dot, glow or decorative badge to the mark.

CONTRAST BEFORE EFFECT

DO NOT

- STRETCH
- ROTATE
- OUTLINE
- ADD EFFECT
- LOW CONTRAST
- CHANGE DOT

If the mark cannot be read at a glance, change the surface - never compensate with decoration.

SEGOE UI

SYSTEM TEXT / INTERFACE / LONG-FORM CLARITY

Strategy becomes useful when it turns into a repeatable action.

Use Segoe UI for body copy, explanatory notes and interface text. Keep paragraphs short. Prefer evidence, decisions and next actions over generic claims.

{ SIGNAL: ACTIVE }

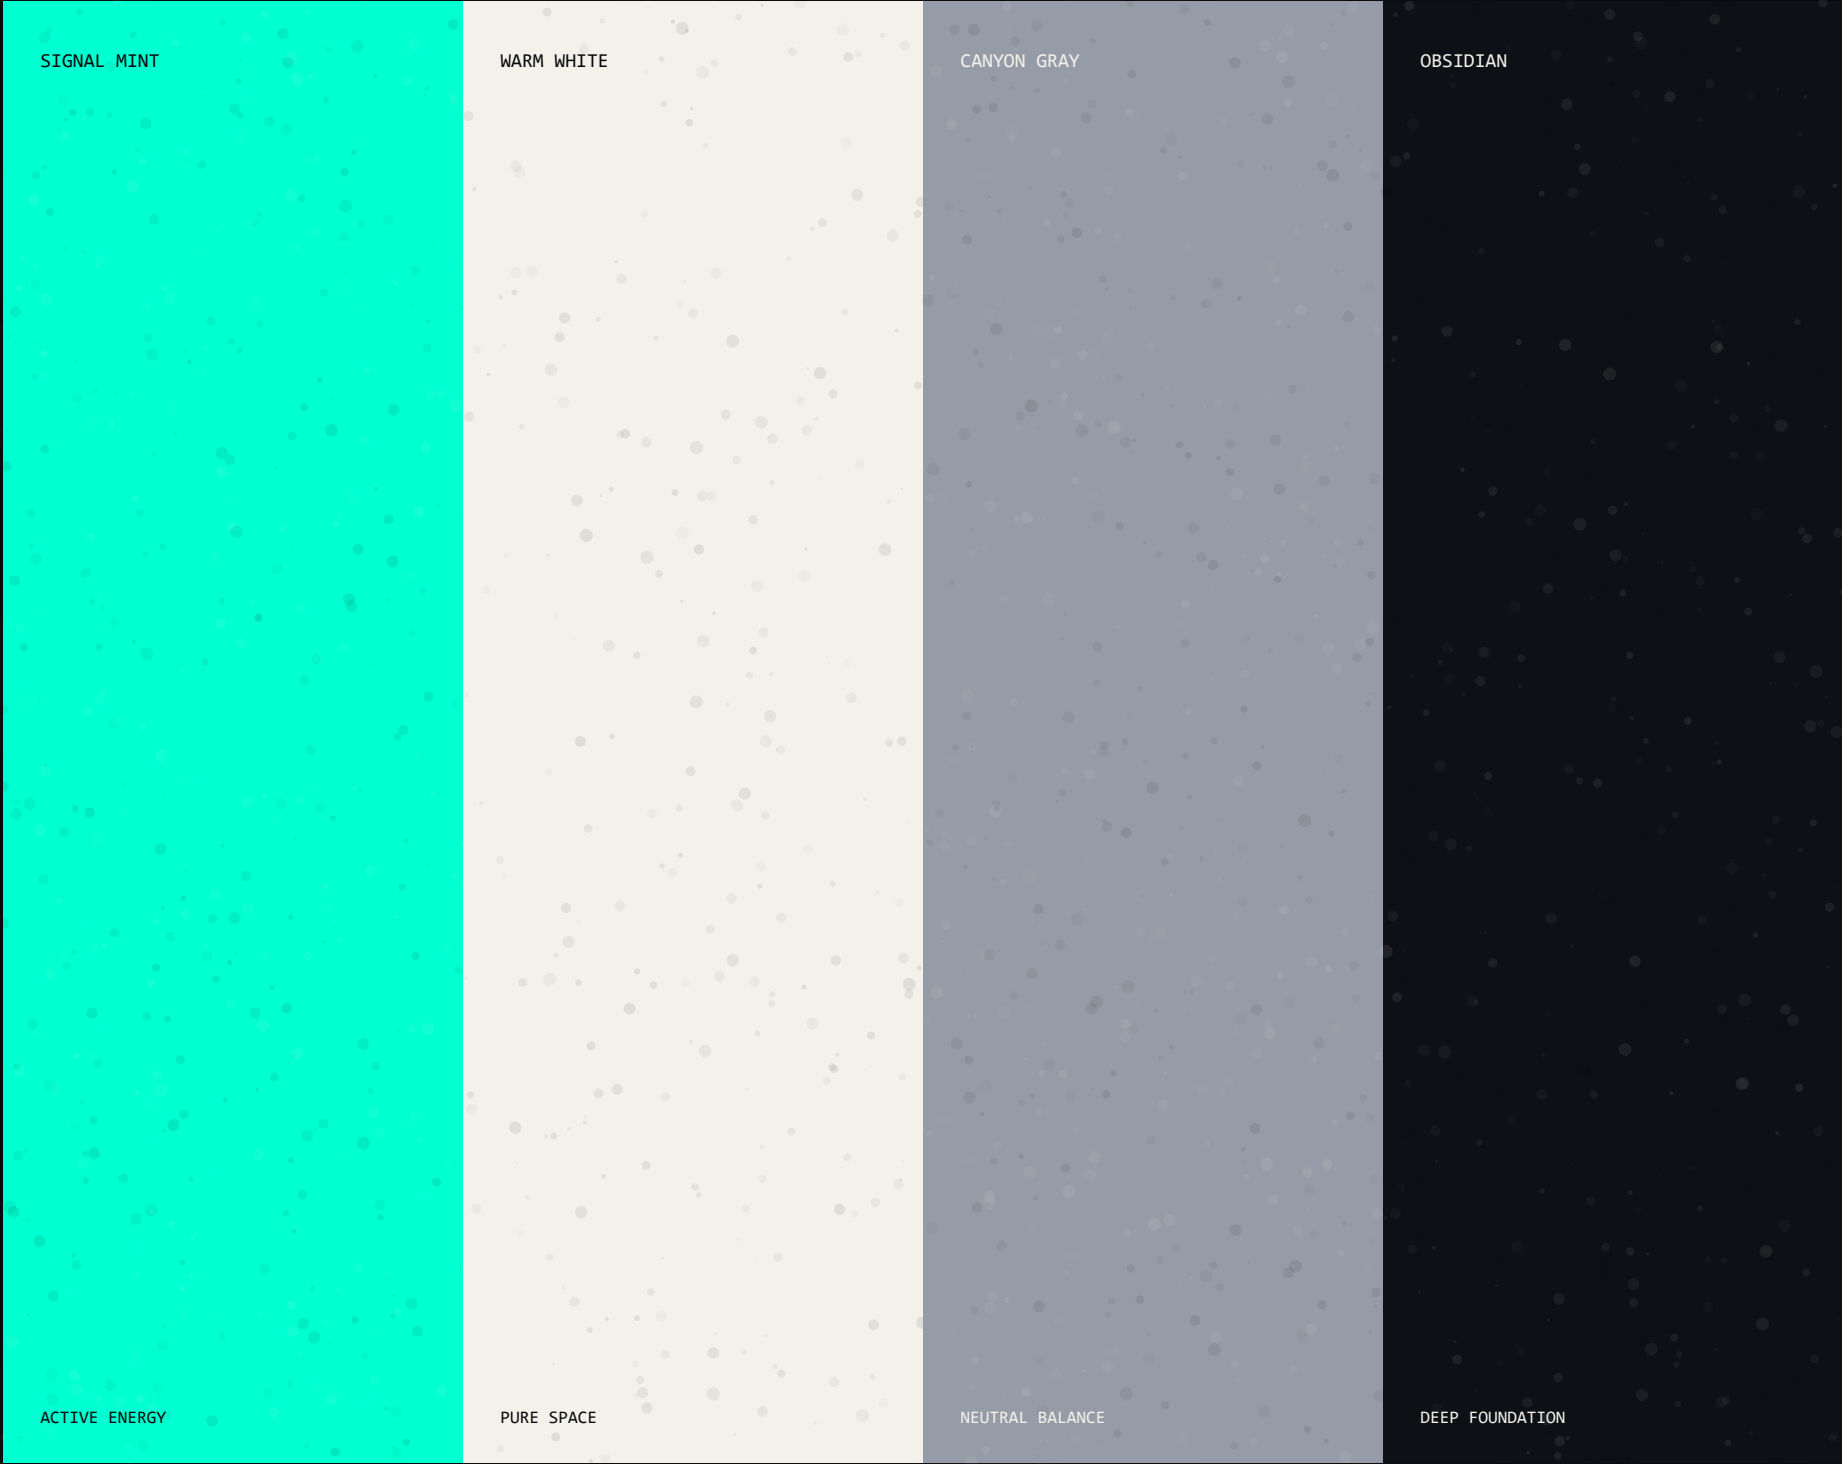

STATUS / WORKING BUILD

MODE / TELEGRAM-FIRST

NEXT / SHIP + LEARN

CONSOLAS / TECHNICAL LABELS / DATA / CODE

Display creates tension. System text creates trust.

08 / COLOR ARCHITECTURE

COLOR IS AN OPERATING SYSTEM

01 / SIGNAL MINT

Actions, active states and moments of product energy.

02 / WARM WHITE

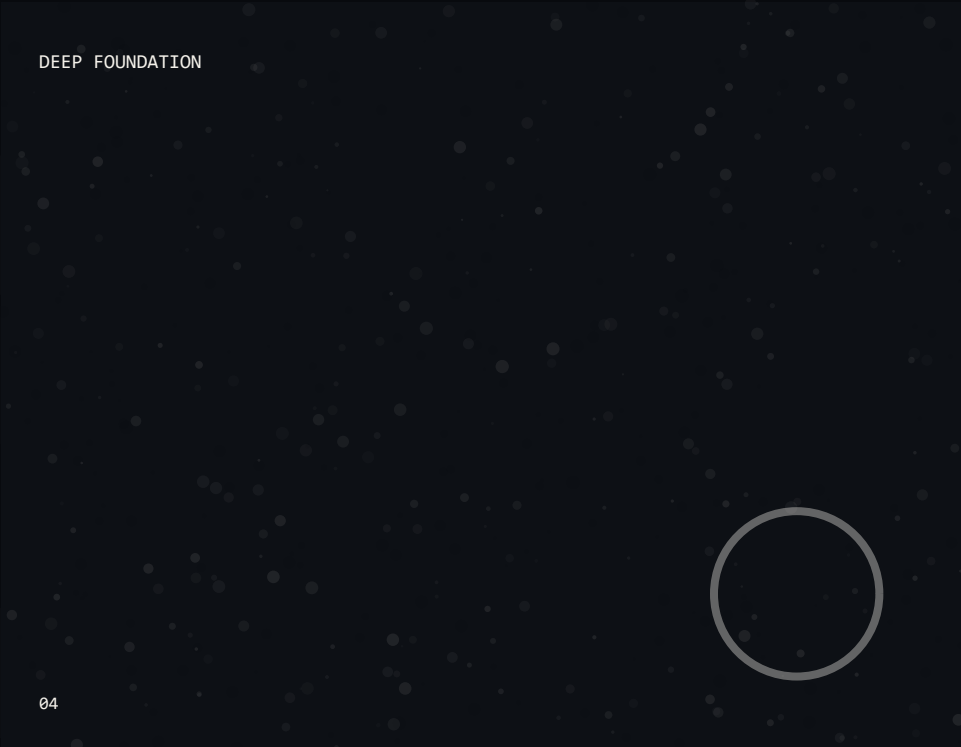

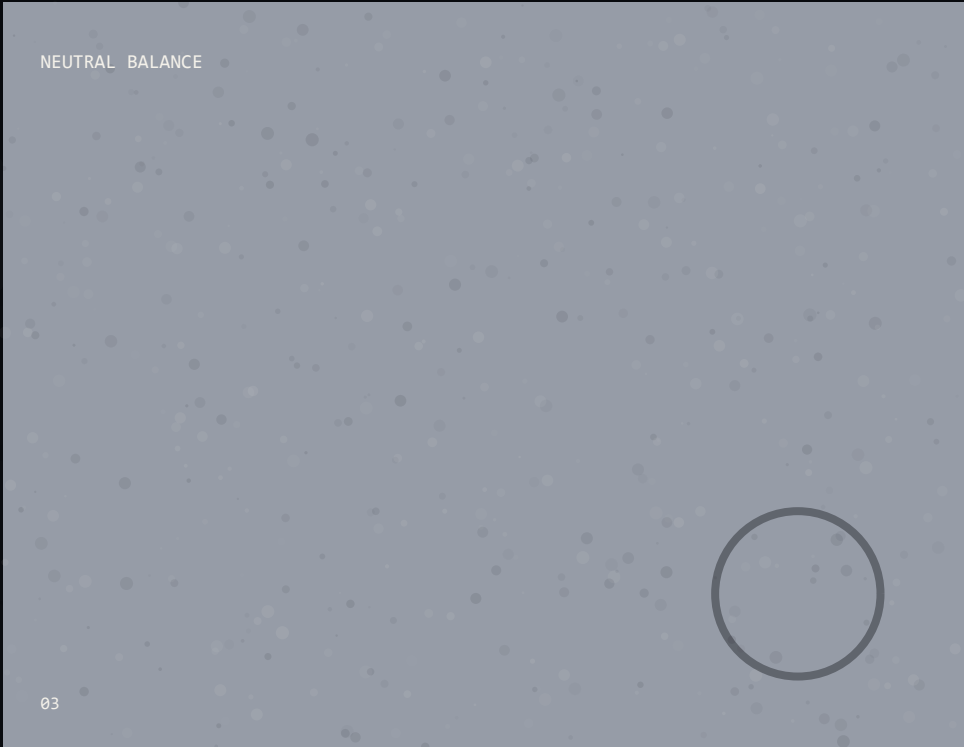

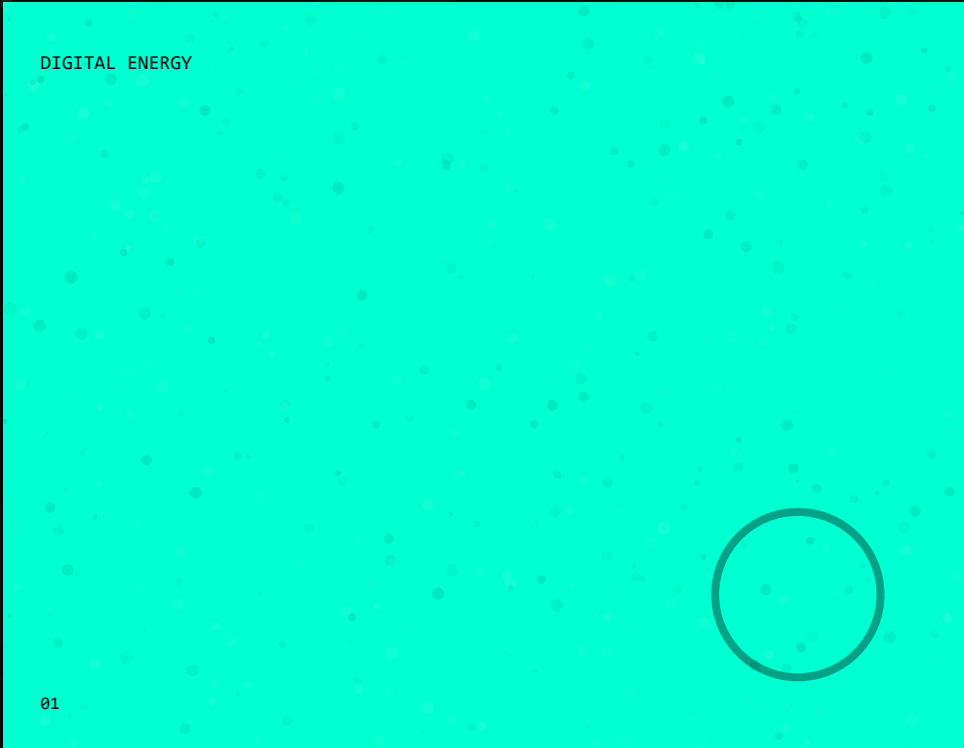

Editorial clarity and premium breathing room.

03 / CANYON GRAY

Explanations, metadata and secondary hierarchy.

04 / OBSIDIAN

Depth, focus and the foundation of every system.

FOUR MOODS. ONE WORLD.

Color should feel material, not decorative. Mint carries velocity. White creates control. Gray connects logic to atmosphere. Black lets every active signal breathe.

The ratio is deliberate: 70% dark / 20% neutral / 10% signal.

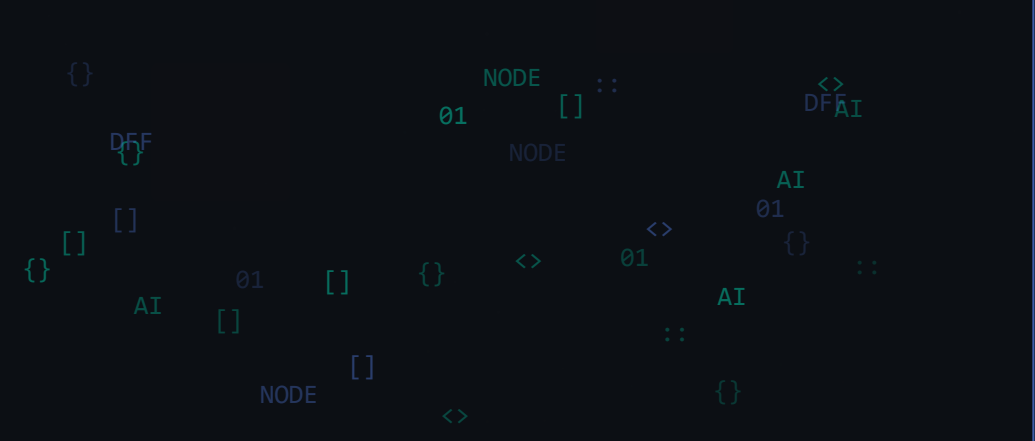

NO ACID CYBERPUNK / NO RAINBOW UI / NO RANDOM GLOW
